BBA

Protein Structure & Molecular Enzymology

Vol. 1077, 1991

Cumulative Contents

Editorial *vii*

Regular Papers

Evidence for an in vivo modification of mitochondrial proteins by coenzyme A
W. Huth, C. Worm-Breitgoff, U. Möller and I. Wunderlich (F.R.G.) 1

Differences in defining residues relevant to antibody binding by ELISA and proteolysis protection at the level of peptide antigenic determinants
T. Kobayashi, A. Ametani, K. Yamauchi and S. Kaminogawa (Japan) 11

Resolution of the fluorescence of the buried tryptophan in yeast 3-phosphoglycerate kinase using succinimide
P.G. Varley, D.T.F. Dryden and R.H. Pain (U.K.) 19

The complete amino acid sequence of feline β-lactoglobulin II and a partial revision of the equine β-lactoglobulin II sequence
J.A. Halliday, K. Bell and D.C. Shaw (Australia) 25

Influence of pH on the structural changes of β-lactoglobulin studied by tryptic hydrolysis
J.-M. Chobert, M. Dalgalarrondo, E. Dufour, C. Bertrand-Harb and T. Haertlé (France) 31

Purification and characterization of recombinant mouse thymidylate synthase
H. Zhang, R.J. Cisneros, W. Deng, J.W. Zapf, L.F. Johnson and R.B. Dunlap (U.S.A.) 35

Purification and characterization of nucleoside diphosphate kinase from spinach leaves
T. Nomura, T. Fukui and A. Ichikawa (Japan) 47

Phosphorylation of small molecular weight polypeptides in the iris-ciliary complex, aqueous humor and vitreous humor
A. Banerjee, D.M. Richiert and M. Bagchi (U.S.A.) 56

Influenza virus sialidase: effect of calcium on steady-state kinetic parameters
A.K.J. Chong, M.S. Pegg and M. Von Itzstein (Australia) 65

Heterogeneity of chicken liver cytosolic aspartate aminotransferase
S. Imperial, C. Quiroga, M. Busquets and A. Cortés (Spain) 72

Biosynthesis of marsupial milk oligosaccharides: characterization and developmental changes of two galactosyltransferases in lactating mammary glands of the tammar wallaby, *Macropus eugenii*
M. Messer and K.R. Nicholas (Australia) 79

Identification of a globin free radical in equine myoglobin treated with peroxides
M.J. Davies (U.K.) 86

Distance changes at the regulatory and catalytic sites on *Escherichia coli* glutamine synthetase: a spin label study on the effect of substrate(s) binding
G.A. Ubom, S.G. Rhee, J.B. Hunt and P.B. Chock (U.K., U.S.A.) 91

Adenine nucleotide regulation of particulate guanylate cyclase from rat lung
H. Gazzano, H.I. Wu and S.A. Waldman (U.S.A.) 99

Effect of organic anions on the crystallization of the Ca^{2+}-ATPase of muscle sarcoplasmic reticulum
M. Misra, D. Taylor, T. Oliver and K. Taylor (U.S.A.) 107

Comparative molecular topography of botulinum neurotoxins from *Clostridium butyricum* and *Clostridium botulinum* type E
B.R. Singh, J.A. Giménez and B.R. DasGupta (U.S.A.) 119

Report

The effect of the conformer state and the model size chosen on the force field of the polypeptide backbone
A. Balázs, P. Rajczy and G. Horváth (Hungary) 127

Corrigendum 131

Regular Papers

A study of the heterogenous structure of guinea pig lysosomal β-mannosidase using a polyclonal antibody
N.R. McCabe and G. Dawson (U.S.A.) 133

Purification and characterization of a novel glutathione transferase from *Serratia marcescens*
C. Di Ilio, A. Aceto, R. Piccolomini, N. Allocati, A. Faraone, T. Bucciarelli, D. Barra and G. Federici (Italy) 141

Studies on the subunit structure of textilotoxin, a potent presynaptic neurotoxin from the venom of the Australian common brown snake (*Pseudonaja textilis*). 2. The amino acid sequence and toxicity studies of subunit D
J.A. Pearson, M.I. Tyler, K.V. Retson and M.E.H. Howden (Australia) 147

Thermodynamics of actin polymerization; influence of the tightly bound divalent cation and nucleotide
H.J. Kinosian, L.A. Selden, J.E. Estes and L.C. Gershman (U.S.A.) 151

The active site of deoxyhypusyl hydroxylase: use of catecholpeptides and their component chelator and peptide moieties as molecular probes
A. Abbruzzese, H.M. Hanauske-Abel, M.H. Park, S. Henke and J.E. Folk (Italy, U.S.A., F.R.G.) 159

Purification of geranylgeranyl diphosphate synthase from *Sinapis alba* etioplasts
A. Laferrière and P. Beyer (F.R.G.) 167

Identification of H^+/K^+-ATPase α,β-heterodimers
K. Hall, G. Perez, G. Sachs and E. Rabon (U.S.A.) 173

Structure–activity correlations in human kidney aldehyde reductase-catalyzed reduction of *para*-substituted benzaldehyde by 3-acetyl pyridine adenine dinucleotide phosphate
A. Bhatnagar, S.-Q. Liu and S.K. Srivastava (U.S.A.) 180

4-Aminobutyrate aminotransferase: identification of lysine residues connected with catalytic activity
Y.T. Kim and J.E. Churchich (U.S.A.) 187

Identification of koningic acid (heptelidic acid)-modified site in rabbit muscle glyceraldehyde-3-phosphate dehydrogenase
K. Sakai, K. Hasumi and A. Endo (Japan) 192

Comparison of the autolyzed and unautolyzed forms of μ- and m-calpain from bovine skeletal muscle
T. Edmunds, P.A. Nagainis, S.K. Sathe, V.F. Thompson and D.E. Goll (U.S.A.) 197

Chemical and kinetic mechanisms of aspartate-β-semialdehyde dehydrogenase from *Escherichia coli*
W.E. Karsten and R.E. Viola (U.S.A.) 209

The amino acid sequence of a major protein component in the light harvesting complex of the green photosynthetic bacterium *Chlorobium limicola* f. *thiosulfatophilum*
P. Højrup, P. Gerola, H.F. Hansen, J.M. Mikkelsen, A.E. Shahed, J. Knudsen, P. Roepstorff and J.M. Olson (Denmark, Italy) 220

Regulation of *S*-adenosylmethionine synthetase activity in cultured human lymphocytes
J. De La Rosa, M. Kotb and N.M. Kredich (U.S.A.) 225

The inhibition of rat liver threonine dehydratase by carbamoyl-phosphate The formation of carbamoylpyridoxal 5′-phosphate
R. Pagani, F. Ponticelli, L. Terzuoli, R. Leoncini and E. Marinello (Italy) 233

Report

The complete amino acid sequence of the pathogenesis-related (PR2) protein induced in chemically stressed bean leaves
A. Awade, M.H. Metz-Boutigue, M. Le Ret, G. Genot, I. Amiri and G. Burkard (France) 241

Regular Papers

Stimulation of the amidolytic activity of single chain tissue-type plasminogen activator by fibrinogen degradation products: possible fibrin binding sites on single chain tissue-type plasminogen activator molecule
T. Urano, Y. Takada and A. Takada (Japan) 245

ADP-ribosylation and de-ADP-ribosylation of the *rho* protein by *Clostridium botulinum* exoenzyme C3. Regulation by EDTA, guanine nucleotides and pH
B. Habermann, C. Mohr, I. Just and K. Aktories (F.R.G.) 253

Purification and immunological characterization of a new form of γ-glutamyltransferase of human semen
S. Abe, H. Kochi and K. Hiraiwa (Japan) 259

Diabetic BB/Wor rat haptoglobin exhibits a probable structural abnormality in Asn-linked oligosaccharides
A.E. Chapman, P. Copeland, S. Davidson and J.C. Calhoun IV (U.S.A.) 265

1-Aminocyclopropane-1-carboxylic acid as a substrate of peroxidase: conditions for oxygen consumption, hydroperoxide generation and ethylene production
M. Acosta, J.L. Casas, M.B. Arnao and F. Sabater (Spain) 273

Modification of a single tryptophan of the inorganic pyrophosphatase from thermophilic

bacterium PS-3: possible involvement in its substrate binding
S.-i. Kaneko, T. Ichiba, N. Hirano and A. Hachimori (Japan) 281

Structurally different rat liver medium-chain acyl CoA dehydrogenases directed by complementary DNAs differing in their 5′-region
T. Inagaki, N. Ohishi, N. Tsukagoshi, S. Udaka, S. Ghisla and K. Yagi (Japan, F.R.G.) 285

Characterisation of arginase from the extreme thermophile '*Bacillus caldovelox*'
M.L. Patchett, R.M. Daniel and H.W. Morgan (New Zealand) 291

Purification and characterization of a catalase-peroxidase and a typical catalase from the bacterium *Klebsiella Pneumoniae*
A. Hochman and I. Goldberg (Israel) 299

The isolated 21 kDa N-terminal fragment of myosin binds to actin in an ATP and ionic strength-dependent manner
A. Muhlrad (U.S.A., Israel) 308

Pseudomonas aeruginosa alkaline proteinase might share a biological function with plasmin
Y. Shibuya, T. Yamamoto, T. Morimoto, N. Nishino, T. Kambara and H. Okabe (Japan) 316

Age-related alterations of enzyme activities and subunits of hepatic glutathione *S*-transferases in male and female Fischer-344 rats
M.-C. Carrillo, M. Nokubo, K. Kitani, K. Satoh and K. Sato (Argentina, Japan) 325

Physicochemical characterization of a minor mucin component from cystic fibrosis tracheobronchial secretions
N.V. Padhye, B. Naziruddin, V.C. Desai, S.R. De la Rocha and G.P. Sachdev (U.S.A.) 332

Determination of the primary and secondary structures of the dromedary (*Camelus dromedarius*) prolactin and comparison with prolactins from other species
N. Martinat, J.-C. Huet, C. Nespoulous, Y. Combarnous and J.-C. Pernollet (France) 339

Isolation of three forms of cystatin from submandibular saliva of isoproterenol-treated rats, its properties and kinetic data
T. Nishiura, K. Ishibashi and K. Abe (Japan) 346

Conformation changes of cuttlefish (*Euprymna morsei*) rhodopsin following photoconversion
K. Hiraki, T. Hamanaka, M. Seidou and Y. Kito (Japan) 355

The amino acid sequence and properties of an edema-inducing Lys-49 phospholipase A_2 homolog from the venom of *Trimeresurus mucrosquamatus*
C.-S. Liu, J.-M. Chen, C.-H. Chang, S.-W. Chen, C.-M. Teng and I.-H. Tsai (Taiwan, China) 362

Solution conformations of the N-terminal CNBr fragment of glycogen phosphorylase and its interaction with calmodulin
J.F. Takrama and D.J. Graves (U.S.A.) 371

Changes in AMP deaminase activities in the hearts of diabetic rats
R.L. Jenkins, H.G. McDaniel and L. Atkins (U.S.A.) 379

Dynamic quenching studies of fluorophore-labelled myosin subfragment 1 and its alkali light chain subunits
D.G. Bhandari, S. Jackson and I.P. Trayer (U.K.) 385

Light absorption, electron paramagnetic resonance and resonance Raman characteristics of nitridochromium(V)protoporphyrin-IX and its reconstituted hemoproteins
H. Hori, M. Tsubaki, N.-T. Yu and T. Yonetani (Japan, U.S.A.) 392

Oxidative decarboxylation of 3,4-dihydroxymandelic acid to 3,4-dihydroxybenzaldehyde: electrochemical and HPLC analysis of the reaction mechanism
T.H. Czapla, M.R. Claeys, T.D. Morgan, K.J. Kramer, T.L. Hopkins and M.D. Hawley (U.S.A.) 400

Alkylation of acetylcholinesterase anionic centre with aziridinium ion accelerates the enzyme acylation step
A. Sepp and J. Järv (U.S.S.R.) 407

Reports

Characterization of phosphopeptide derived from bovine β-casein: an inhibitor to intra-intestinal precipitation of calcium phosphate
R. Sato, M. Shindo, H. Gunshin, T. Noguchi and H. Naito (Japan) 413

An increase in the transglycosylation activity of *Saccharomycopsis* α-amylase altered by site-directed mutagenesis
I. Matsui, K. Ishikawa, S. Miyairi, S. Fukui and K. Honda (Japan) 416

Cumulative Contents, Vol. 1077 421
